

**Exploring the Role of Ultrasound in Vascular Surgery:
 From Diagnosis to Treatment**

Thursday, November 14 | 8:00am - 5:00pm

Session 1		
Utilizing Ultrasound in the Evaluation of the PAD Patient		
TIME	TOPIC	SPEAKER
8:00am - 8:30am	Cultivating Physical Wellbeing	Abigail Mize, RVT
8:30am - 9:10am	Treatment Outcomes in the CLI Patient Based on Duplex Ultrasound Findings	Jill Sommerset, RVT
9:10am - 9:20am	CLI Case Study	Savannah Pledger, RVT
9:20am - 9:35am	PANEL DISCUSSION with QUESTIONS	

Session 2		
Carotid Artery Disease: Evaluation		
TIME	TOPIC	SPEAKER
9:35am - 10:05am	Role of Ultrasound in Grading Carotid Artery Stenosis	Tina Creek, RVT
10:05am - 10:35am	Review of Diagnostic Criteria vs. the Gold Standard for Correlation	Josh Lee, RVT
10:35am - 10:45am	Carotid Case Study	Pedro Perez, RVT
10:45am - 10:55am	PANEL DISCUSSION with QUESTIONS	

————— 11:00am - 10-minute Break —————

Session 3		
Treatment Options for the Chronic Venous Insufficiency Patient		
TIME	TOPIC	SPEAKER
11:10am - 11:50am	The Critical Role of Vascular Ultrasound in the Work-Up of Vein Disease	Brian Sapp, RVT
11:50am - 12:15pm	Valvular vs. Obstructive Disease in the Setting of Chronic Venous Insufficiency (CVI)	Chris LeSar, MD
12:15pm - 12:30pm	PANEL DISCUSSION with QUESTIONS	

LIVE CASE
12:30pm

IVUS-Philips-BD-May Thurner
Dr. Harris, Operator – Dr. LeSar, Moderator

Session 4 Ultrasound in Abdominal Aortic Aneurysm Diagnosis and Treatment Options		
TIME	TOPIC	SPEAKER
1:15pm - 1:45pm	Imaging Protocols and Diagnostic Criteria	Tish Poe, RVT
1:45pm - 2:05pm	Ultrasound Tips and Tricks to Overcoming Pitfalls	Tina Creek, RVT
2:05pm - 2:35pm	Treatment Options	Chris LeSar, MD
2:35pm - 2:45pm	Case Study	Heather Ridge, RVT

Session 5 Advances in Technology and Future Directions in Vascular Surgery		
TIME	TOPIC	SPEAKER
2:45pm - 3:25pm	Ultrasound Role in Diagnosing Deep Vein Insufficiency and Treatment Options on the Horizon	Tish Poe, RVT
3:25pm - 3:50pm	Ultrasound Role in Dialysis Vein Mapping and New Endovascular Options	Tina Creek, RVT

————— 3:50pm - 10-minute Break —————

BreakOut Sessions (Running Concurrently)		
TIME	TOPIC	SPEAKER
4:00pm - 5:00pm	Pelvic Vein Evaluation - Canon	Deanna New, RVT
4:00pm - 5:00pm	Tibial Mapping and PATs - GE	Abigail Mize, RVT

————— 5:00pm - Thank You & Dismissal —————

**Our Vascular Health Can Determine The Length & Quality
 of Our Lives – We are as Old as Our Arteries**

Friday, November 15 | 8:00am - 5:15pm

Session 1		
Wellness and Aging: Understanding the Impact of Hormones, Supplements, Diet and Exercise on the Body		
TIME	TOPIC	SPEAKER
8:00am - 8:12am	The Role of Hormones in Aging	Jessica Smith, FNP-C
8:12am - 8:24am	The Benefits and Risks of Supplements in Aging	Ed Jones, CN
8:24am - 8:36am	Diet and Nutrition for a Healthy Aging Body	Alison Bailey, MD
8:36am - 8:48am	Exercise and Physical Activity Across the Lifespan	Matt Davis, IFBB Pro
8:48am - 9:00am	PANEL DISCUSSION with QUESTIONS	

Session 2		
Understanding Peripheral Arterial Disease (PAD)		
TIME	TOPIC	SPEAKER
9:00am - 9:10am	The Role of Hormones in Aging	Jessica Smith, FNP-C
9:10am - 9:20am	The Benefits and Risks of Supplements in Aging	Ed Jones, CN
9:20am - 9:30am	Diet and Nutrition for a Healthy Aging Body	Alison Bailey, MD

LIVE CASE 9:30am **The Role of Stenting presented by TERUMO MEDICAL**
Dr. Cuozzo, Operator – Dr. LeSar, Moderator

9:30am - 9:40am	Exercise and Physical Activity Across the Lifespan	Matt Davis, IFBB Pro
9:40am - 10:15am	PANEL DISCUSSION with QUESTIONS	

————— 10:15am - 10:30am BreakOut/Exhibits —————

Session 3 Venous Issues, Varicose Veins and Disease from a Woman's Perspective		
TIME	TOPIC	SPEAKER
10:30am - 10:45am	Chronic Venous Insufficiency (CVI)	William B. Harris, DO
10:45am - 11:00am	Deep Vein Thrombosis (DVT)	William B. Harris, DO
11:00am - 11:15am	May Thurner Syndrome (MTS)	Chris LeSar, MD
11:15am - 11:30am	Pelvic Congestion Syndrome (PCS)	Chris LeSar, MD

—— 11:30am - 30-minute Break - Pick Up Lunch for LUNCH + LEARN ——

Session 4 Complex Medical Vascular Issues		
TIME	TOPIC	SPEAKER
12:00pm - 12:10pm	Renal Vascular Hypertension: When to Stent?	Veronica O'Steen, FNP-C
12:10pm - 12:20pm	Impact of Pre-Existing Conditions on Renal Vascular Disease	Tatyana Joab, MD
12:20pm - 12:30pm	Gender Differences in Treatment and Outcomes for PAD + Vascular Disease	Francis Cuozzo, MD
12:30pm - 12:40pm	Current Standard of Care for Dialysis Access vs. New Technology	Chris LeSar, MD

LIVE CASE
12:45pm

The Role of Atherectomy - Rotarex presented by BD Dr. Harris, Operator – Dr. Cuozzo, Moderator

12:40pm - 1:00pm	PANEL DISCUSSION with QUESTIONS
------------------	--

Session 5 Acute Cardiovascular Issues		
TIME	TOPIC	SPEAKER
1:00pm - 1:12pm	Acute Stroke	Ruchir Shah, MD
1:12pm - 1:24pm	Acute Pulmonary Embolism	Matt Wiisanen, MD
1:24pm - 1:36pm	Acute MI	Matt Wiisanen, MD
1:36pm - 1:58pm	Acute Limb Ischemia	Chris LeSar, MD
1:58pm - 2:13pm	PANEL DISCUSSION with QUESTIONS	

————— 2:13pm - 2:25pm BreakOut/Exhibits —————

Session 6 Carotid Disease issues from a Woman's Perspective		
TIME	TOPIC	SPEAKER
2:25pm - 2:37pm	Carotid Artery Interventions	William B. Harris, DO
2:37pm - 2:49pm	TIA Workup	Leah Lester, FNP-C
2:49pm - 3:01pm	Mesenteric Vascular Disorder	Bency Joseph, FNP-C
3:01pm - 3:13pm	Median Arcuate Ligament Syndrome: A Combined Approach	Rishabh Shah, MD
3:13pm - 3:30pm	PANEL DISCUSSION with QUESTIONS	

Session 7 Aneurysm Disease Issues and Management		
TIME	TOPIC	SPEAKER
3:30pm - 3:40pm	Abdominal Aortic Aneurysm	William B. Harris, DO
3:40pm - 3:50pm	Neurogenic Claudication - Leg Pain: Chiropractic Approach	Chris Lewis, DC
3:50pm - 4:00pm	Neurogenic Claudication - Leg Pain: When to Operate	David Wallace, MD
4:00pm - 4:10pm	Peripheral Artery Aneurysm	Chris LeSar, MD
4:10pm - 4:20pm	PANEL DISCUSSION with QUESTIONS	

Session 8 Wound Healing + Limb Salvage Issues		
TIME	TOPIC	SPEAKER
4:20pm - 4:30pm	Diabetic Foot Ulcers	Angel Freeman, DPM
4:30pm - 4:40pm	Critical Limb Ischemia and Advances in Wound Care	Ashleigh Cates, FNP-C
4:40pm - 4:50pm	Venous Ulcers and the Role of Wound Centers + How Primary Care Can Help	Jason LaPorte, DPM
4:50pm - 5:00pm	Pressure Ulcers - Biomechanical Problems	Aaron Solomon, DPM
5:00pm - 5:10pm	PANEL DISCUSSION with QUESTIONS	

Session 9 Closing Session		
TIME	TOPIC	SPEAKER
5:10pm - 5:15pm	How Early Intervention, Collaboration, and Adoption of Innovative Technologies and Effective Communication Will Affect the Next Generation	Chris LeSar, MD

———— 5:15pm - Thank You & Dismissal - See You in 2025! ————

After Hours

ACTIVITIES

Wednesday Evening | November 13 | 6pm - 8pm

Innovative Ultrasound Solutions: A Hands-On Learning Experience with GE

Thank you GE Medical Imaging

Attendees of the "Innovative Ultrasound Solutions: A Hands-On Learning Experience with GE" will have the unique opportunity to explore the latest advancements in ultrasound technology through interactive, hands-on demonstrations. This workshop will provide in-depth training on cutting-edge GE ultrasound systems, equipping participants with practical skills to enhance diagnostic accuracy and efficiency. Attendees will gain insights into new features, techniques, and applications, enabling them to stay at the forefront of medical imaging and deliver improved patient outcomes in their clinical practice.

Thursday Evening | November 14 | 5:30pm - 6:30pm

Welcome Reception

Thank you Ultrasound Division

Attendees of the Welcome Reception with Canon Ultrasound will enjoy a unique blend of networking opportunities and exposure to the latest advancements in ultrasound technology. This reception provides an informal setting to connect with industry experts, peers, and thought leaders, fostering valuable relationships. Participants will also hear firsthand about Canon's newest innovations in ultrasound, gaining insights into cutting-edge features and future trends that can elevate diagnostic capabilities. It's a perfect opportunity to learn, connect, and stay ahead in the rapidly evolving world of medical imaging.

Thursday Evening | November 14 | 6:30pm - 8:30pm

Educational Dinner: Modern Insights into Atherectomy and Chronic Venous Disease in Women

Thank you Medtronic Peripheral Vascular Division

***2 AMA PRA Cat 1 Credits Available for this event**

Attendees of the Educational Dinner on Atherectomy Usage and Women's Chronic Venous Issues will gain valuable insights into the latest advancements and best practices for use of atherectomy and managing complex venous conditions in women. This in-depth session, led by experts in vascular care, will explore the proper role of atherectomy in treating vascular conditions and a special focus on the unique vascular challenges women face. Participants will learn about tailored treatment strategies, engage in discussions on optimizing patient outcomes, and enjoy networking opportunities with fellow professionals, all while deepening their understanding of cutting-edge vascular solutions.
