

One-Day Conference Agenda: Advanced Vascular Diagnostics & Treatments

Accreditation: 8 CME Credits

7:30 AM – 8:00 AM

Registration & Breakfast

- Welcome packets, badges, and networking over a light breakfast.
-

Session 1: Peripheral Artery Disease (PAD)

8:00 AM – 9:00 AM

Part 1: PAD Diagnosis – H+P with Ultrasound Findings

- Speaker: [Insert Name]
- Topics: Clinical presentation, history-taking tips, physical exam essentials, and duplex ultrasound findings in PAD.

Part 2: PAD Treatment Options – Restoring Blood Flow

- Speaker: [Insert Name]
 - Topics: Endovascular and surgical techniques, including angioplasty, stenting, and bypass surgery.
-

Session 2: Carotid Artery Disease and Stroke Prevention

9:00 AM – 10:00 AM

Part 1: Carotid Disease Diagnosis – H+P with Ultrasound

- Speaker: [Insert Name]
- Topics: Identifying stroke risks, physical exam findings, and duplex ultrasound interpretation.

Part 2: Carotid Disease Treatments – Reducing Stroke Risk

- Speaker: [Insert Name]
- Topics: Carotid endarterectomy, transfemoral stenting, and TCAR (Transcarotid Artery Revascularization).

10:00 AM – 10:20 AM

Morning Break

Session 3: Aneurysmal Disease

10:20 AM – 11:20 AM

Part 1: Aneurysm Detection – H+P and Ultrasound Findings

- Speaker: [Insert Name]
- Topics: Screening for abdominal and thoracic aneurysms, risk factors, and sonographic evaluation.

Part 2: Aneurysm Treatment – Repair and Management

- Speaker: [Insert Name]
 - Topics: Endovascular aneurysm repair (EVAR), thoracic EVAR (TEVAR), and open surgical interventions.
-

Session 4: Deep Venous Disease

11:20 AM – 12:20 PM

Part 1: Venous Disease Diagnosis – H+P and Ultrasound

- Speaker: [Insert Name]
- Topics: Chronic venous insufficiency, May-Thurner Syndrome, and pelvic congestion syndrome evaluation.

Part 2: Venous Disease Treatment – Restoring Venous Flow

- Speaker: [Insert Name]
 - Topics: Venous stenting, ablation therapies, and embolization for pelvic congestion syndrome.
-

12:20 PM – 1:00 PM

Lunch Break

Session 5: Critical Limb Ischemia (CLI)

1:00 PM – 2:00 PM

Part 1: CLI Diagnosis – H+P and Ultrasound for Limb Salvage

- Speaker: [Insert Name]
- Topics: Multidisciplinary approach to CLI, ultrasound-guided assessment, and risk stratification.

Part 2: CLI Treatment – Preserving Limbs, Saving Lives

- Speaker: [Insert Name]
 - Topics: Endovascular options, including tibial and pedal interventions, deep venous arterialization, and bypass surgery.
-

Session 6: Varicose Veins and Superficial Venous Disease

2:00 PM – 3:00 PM

Part 1: Superficial Venous Disease Diagnosis – H+P and Ultrasound

- Speaker: [Insert Name]
- Topics: Assessing venous reflux, saphenous vein involvement, and patient history.

Part 2: Varicose Vein Treatments – Modern Interventions

- Speaker: [Insert Name]
 - Topics: Sclerotherapy, radiofrequency ablation, VenaSeal, and Varithena foam therapy.
-

3:00 PM – 3:20 PM

Afternoon Break

Session 7: Innovations in Vascular Care

3:20 PM – 4:20 PM

- Speaker: [Insert Name]
- Topics: Current advancements in vascular imaging and treatments, case studies demonstrating integration of ultrasound diagnostics with vascular interventions, and emerging technologies.

4:20 PM – 5:00 PM

Panel Discussion & Closing Remarks

- Moderator: [Insert Name]
 - Panelists: [Insert Names]
 - Topics: Q&A with experts, insights on the future of vascular care, and distribution of CME certificates.
-
