

March 12, 2026

### About the Conference

FACES 2026 is a multidisciplinary CME conference focused on women's vascular health. This year's program brings together experts in vascular surgery, cardiology, podiatry, dermatology, gynecology, primary care and functional medicine to address arterial and venous conditions that disproportionately affect women.

Delayed recognition contributes to increased stroke risk, limb loss, hospitalizations, and higher long-term healthcare costs. FACES 2026 is designed to close that gap through education, collaboration, ultrasound training, and improved referral pathways.

### Regional Influence + Clinical Authority

The conference is hosted by the Vascular Institute of Chattanooga, the region's only accredited Deep Venous & Superficial Vein Center and only designated Critical Limb Center. The practice operates multiple locations with rapid-access appointments (1–3 days) and leads advanced PAD, venous, and limb salvage care across Tennessee and North Georgia.

### Why Sponsor

- Direct access to vascular specialists and referring providers
- Brand visibility with regional and national healthcare leaders
- Opportunity to support education in women's vascular disease
- Networking with physicians, APP's, Nurses, MA's and clinical decision makers

### Expected Audience

Vascular surgeons | Cardiologists | Primary Care Providers | Gynecologists  
Dermatologists | Podiatrists | Nurse Practitioners + Physician Assistants  
Sonographers + Vascular Technologists | Wound Care Specialists

## Investment + Impact

We are seeking educational grant support and sponsorship contributions to cover CME accreditation, venue and AV production, Virtual broadcast, educational materials, speaker travel and support, hands-on ultrasound equipment needs, and regional marketing outreach. Your support allows us to offer this event at no charge to providers, ensuring broad participation and maximum regional impact.
